THE PARKER B. FRANCIS FELLOWSHIPS IN PULMONARY RESEARCH

The goal of the Parker B. Francis Fellowship Program of the Francis Family Foundation is to exert a favorable and lasting influence on the field of pulmonary medicine by providing the means to support promising young physicians and scientists for a period of training in research. Since 1976, the Parker B. Francis Fellowship Program has provided over \$66 million in support of career development for more than 850 M.D. and Ph.D. scientists embarking on careers in clinical, laboratory or translational science in Pulmonary, Critical Care and Sleep Medicine. The PBF Fellowship provides important support at a key transition point in the careers of new scientists who will benefit patients with lung diseases through innovative research.

The PBF Fellows receive three years of support to work with experienced mentors in many diverse areas of research related to lung biology, critical illness and control of breathing. Past PBF Fellows have become international leaders in all aspects of Pulmonary, Critical Care and Sleep Medicine.

Photos below – Left to right: David D. Fuller, PhD (Mentor and 2001 PBF Fellow) and Mai K. ElMallah, MD (2012 PBF Fellow) University of Florida; Elena A. Goncharova, PhD (2008 PBF Fellow) and Reynold A. Panettieri, Jr., MD (Mentor and 1989 PBF Fellow) University of Pennsylvania; and Curtis H. Weiss, MD (2011 PBF Fellow) and Jacob I. Sznajder, MD (Mentor) Northwestern University

The Francis Family Foundation

Parker B. Francis II, founder of the Puritan-Bennett Company in 1913, established a foundation bearing his name in 1951. Because Puritan-Bennett was a leading manufacturer of respiratory equipment and medical gases, the foundation provided grants to universities and research foundations to fund research in anesthesiology and related sciences. Parker B. Francis II's sons assumed leadership of Puritan-Bennett after his death in 1957; with John B. Francis as Board Chairman and Parker B. Francis III as president. While the Parker B. Francis II Foundation continued to fund anesthesiology and pulmonary research, Parker B. Francis III also established a separate foundation to fund his interests in education, arts and culture in the greater Kansas City metropolitan area.

Parker B. Francis

Mary Harris Francis
and John B. Francis

In 1975, John B. Francis established the Parker B. Francis Fellowship Program to provide funding for M.D. and Ph.D. scientists pursuing careers in pulmonary research, and the first PBF Fellows were selected in 1976. Since that time, over 800 M.D. and Ph.D. scientists have received PBF Fellowship awards. In 1989, the two foundations merged to become the Francis Family Foundation, which continues to support the Parker B. Francis Fellowship Program, and Lifelong Learning with a focus on early childhood education, and arts and culture in Kansas City.

John B. Francis served as president of the Francis Family Foundation until 1998 and honorary Chair of the Foundation's Board of Directors until his death in 2004. His wife, Mary Harris Francis, continued to serve on the Board as honorary Vice Chair until her death in 2005. Three of their four children, Ann F. Barhoum, David V. Francis and Scott Francis, now serve on the Francis Family Foundation Board of Directors.

The success of past PBF Fellowship awardees shows that a Parker B. Francis Fellowship has become a badge of honor, a predictor of future success, and a monument to the Francis family for their dedication to supporting the careers of new research scientists whose work is improving the lives of adults and children with a wide variety of lung diseases.¹

SHARI HOCKENBERY, C.M.P., *Program Specialist, Email:*
shari@francisfoundation.org

"The generous support of the Francis family through the Parker B. Francis Fellowship Program was instrumental to launching my career as a physician-scientist. The beginning of a career in medical research is a particularly vulnerable time, and the support of the PBF Fellowship Program allowed me to minimize financial stresses in the lab and to concentrate my attention on conducting the most rigorous, impactful research possible. As a result, I was able to embark upon very fruitful lines of inquiry that continue in my current research, and that I truly believe will one day measurably improve the health and well being of patients with pulmonary diseases. I cannot adequately express my gratitude for the support of the PBF Fellowship Program!"

Joshua P. Fessel, M.D., Ph.D., Assistant Professor, Vanderbilt University
(PBF Fellow, Class of 2013)

PAST PBF FELLOWSHIP PROGRAM SCIENTIFIC DIRECTORS

"The Parker B. Francis Fellowship is widely recognized in the field as one of the most prestigious fellowships for junior pulmonary scientists. After being awarded the fellowship for my post-doctoral project, I distinctly remember being congratulated by several past PBF fellows, from members of my division and from leadership within my institution. I am certain that my ability to obtain subsequent funding was dependent, in part, upon having obtained a PBF fellowship early in my career."

*James P. Bridges, PhD, Assistant Professor of Medicine, Cincinnati Children's Hospital
(PBF Fellow, Class of 2007)*

1995

PARKER B. FRANCIS JO RAE WRIGHT AWARD FOR SCIENTIFIC EXCELLENCE

Awarded annually to a recent graduate of the PBF Fellowship Program whose research shows exceptional creativity and promise and who has demonstrated outstanding mentoring and professional leadership qualities

- Laura E. Fredenburgh, M.D. (2012)
- George R. Washko, Jr., M.D. (2013)
- Timothy Eoin West, M.D. (2014)
- John F. Alcorn, Ph.D. (2015)
- Brian B. Graham, M.D. (2016)
- Molly F. Franke, Sc.D. (2017)
- Mai K. ElMallah, M.D. (2018)
- Satish K. Madala, Ph.D. (2019)
- Jonathan A. Kropski, M.D. (2020)
- Lauren J. Van Scoy, M.D. (2021)

PARKER B. FRANCIS RESEARCH OPPORTUNITY AWARD

Awarded to PBF applicants who receive a fundable priority score, but relinquish the PBF Fellowship due to other funding

- Sunita Sharma, M.D., M.P.H. (2010)
- Jeffrey A. Haspel, M.D., Ph.D. (2012)
- Meghan B. Azad, Ph.D. (2013)
- Ajai Dandekar, M.D., Ph.D. (2013)
- Enrico Novelli, M.D. (2013)
- Hitesh S. Deshmukh, M.D., Ph.D. (2015)
- Victor E. Ortega, M.D. (2015)
- Benjamin D. Singer, M.D. (2015)
- Lauren E. Ferrante, M.D., M.P.H. (2017)
- Brian D. Hobbs, M.D., M.P.H. (2017)
- Susan K. Mathai, M.D. (2017)
- Farbod N. Rahaghi, M.D., Ph.D. (2017)
- Shaon Sengupta, M.D., M.P.H. (2017)
- Brian D. Southern, M.D. (2017)
- Karthik Suresh, M.D. (2017)
- Kara J. Mould, M.D., M.P.H. (2018)
- Andrew J. Bryant, MD PhD (2018)
- Paul B. Dieffenbach, MD (2018)
- Kristi A. Streeter, PhD (2018)
- Jacqueline M. Kruser, MD (2019)

PARKER B. FRANCIS LECTURER – INTERNATIONAL AMERICAN THORACIC SOCIETY MEETING

Awarded to former PBF Fellows who are internationally recognized for their outstanding contributions to scientific research and teaching
